# SIM Card Services

KYC- Registration / KYC

# Escrow Account Services

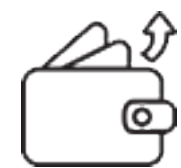

## Escrow Arrangement

ZedPay, a neutral facilitator, creates a special escrow account for agreed funds or assets

## Mutual Agreement

The buyer and seller define the terms of the transaction, setting out the conditions that must be met for the release of funds.

## Payment Authorization

After successful verification, ZedPay gradually releases the funds to the market.

## Transaction Completion

The transaction is successfully executed and completed, giving confidence to both parties.

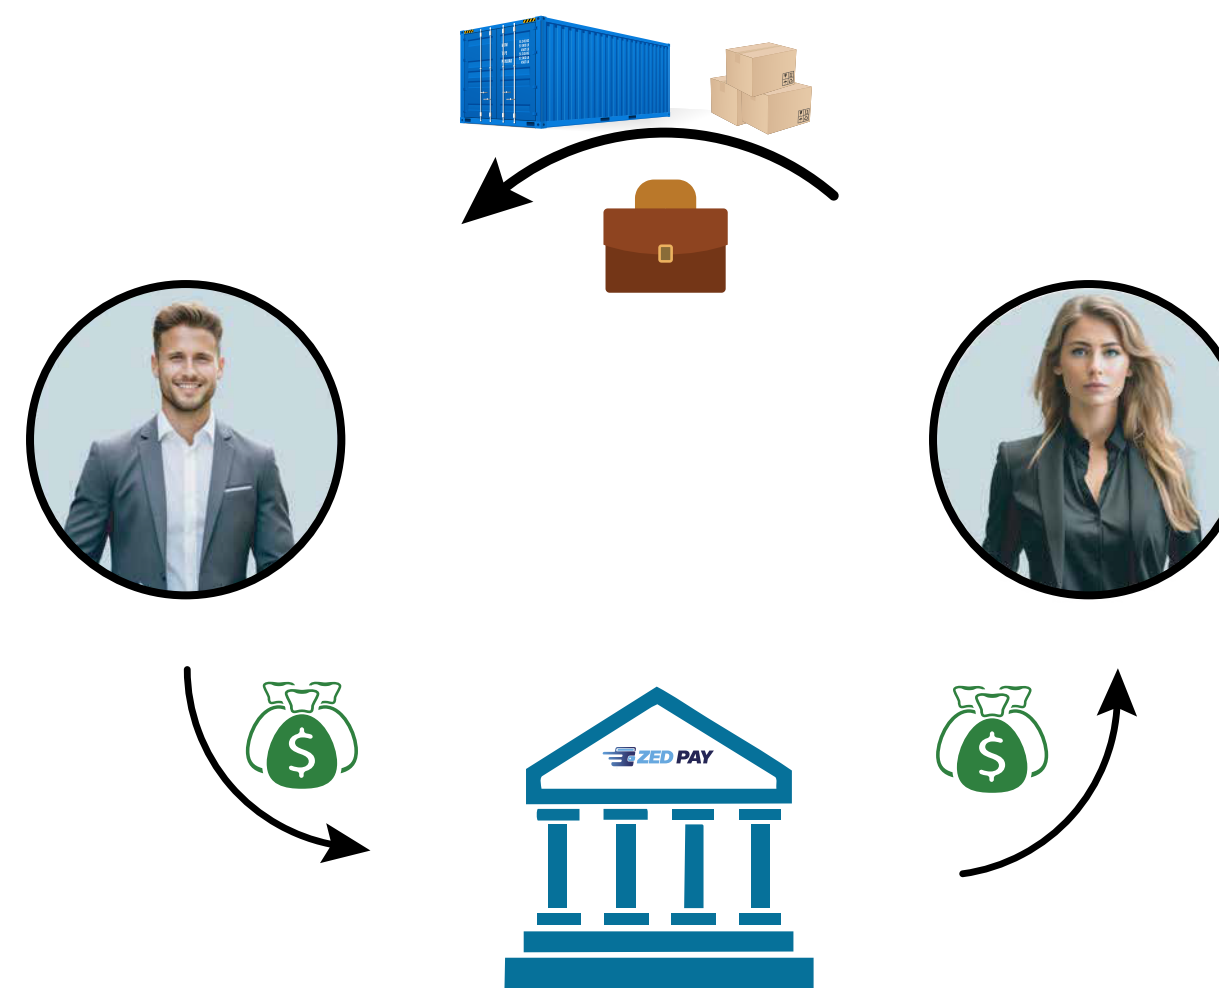

## Verification

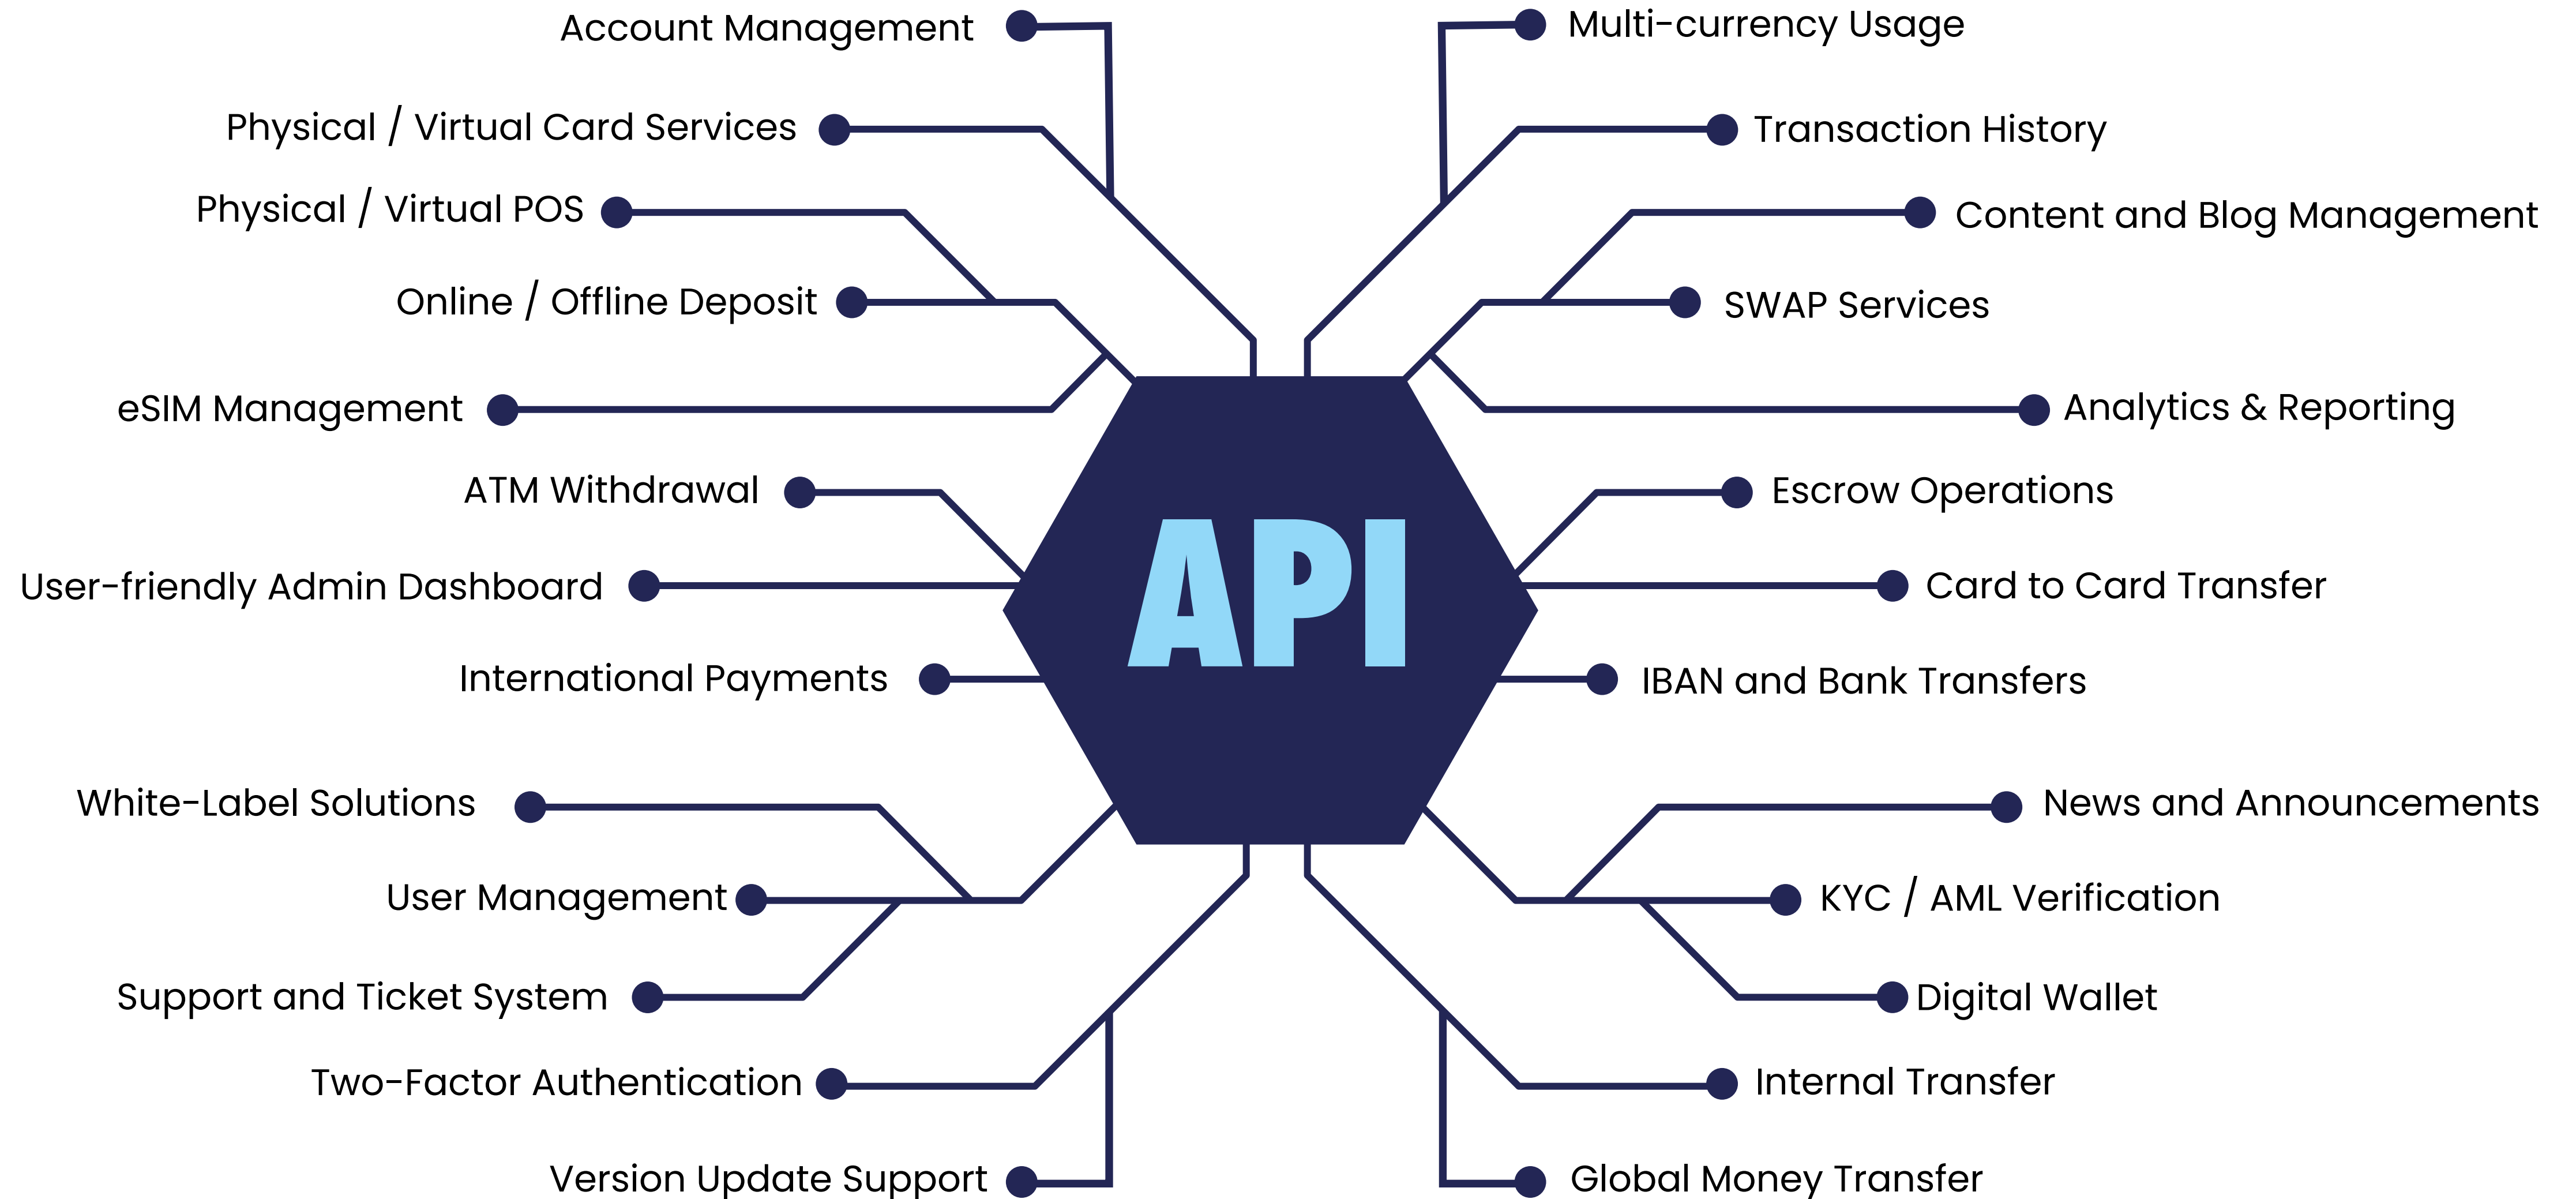

ZedPay rigorously verifies the conditions and ensures compliance with the agreement.

## Fund Placement

The buyer deposits the funds into the ZedPay escrow account.
